

Founding Members Statement

11 June 2020

The Boleskine House Foundation SCIO unequivocally supports the equal rights and opportunities of all people. We stand firmly against all matters of discrimination, be it racial, sexual/gender orientation, peoples with disabilities, political affiliations, religious beliefs, or otherwise.

We became aware that past social media posts made by one of our newly appointed trustees show images that are in conflict with this statement, and that many have rightfully found them upsetting, distasteful, and insensitive. Following this the trustee in question was asked to resign which they did this morning, alongside two others who resigned because they disagreed with this decision.

The decision in this matter was our own as founding members of the Boleskine House Foundation and we stand firmly in our belief that the foundation cannot and will not be affiliated with discriminatory views of any kind.

Yours faithfully,

Kyra Readdy
